EXECUTIVE SUMMARY
Results-driven Senior Full Stack Software Engineer with 7+ years of expertise designing distributed microservices and reactive clo
Track record of optimizing system throughput by 42%, cutting AWS cloud expenditures by $180,000 annually, and leading cross-f

TECHNICAL COMPETENCIES & SKILLS
Languages: JavaScript (ES6+), TypeScript, Python, Go, SQL
Frameworks & Runtimes: React, Node.js, Express, Next.js, Redux Toolkit, Tailwind CSS
Cloud, DevOps & Architecture: AWS (ECS, Lambda, S3, RDS), Docker, Kubernetes, CI/CD, Git, Terraform, Linux
Databases & Caching: PostgreSQL, MongoDB, Redis, Elasticsearch, DynamoDB
Methodologies: Test-Driven Development (TDD), Agile Scrum, System Design, REST APIs, GraphQL

PROFESSIONAL EXPERIENCE
Apex Cloud Technologies - Lead Software Engineer (2021 - Present)
- Spearheaded architecture of distributed payment processing microservice handling $45M in annual transactions with 99.99% up
- Accelerated core API response latency by 38% through Redis query caching and database index optimization.
- Orchestrated enterprise migration to AWS Kubernetes clusters, reducing infrastructure expenditure by $180,000 annually.
- Mentored 8 junior developers on clean code architecture, design patterns, and TDD methodologies.

NexGen Interactive - Senior Software Engineer (2018 - 2021)
- Engineered real-time collaborative workspace serving 250,000 daily active users using React, TypeScript, and WebSockets.
- Optimized client-side bundle size by 45%, improving initial page load time from 3.8s to 1.1s.
- Automated continuous integration pipelines using GitHub Actions, decreasing deployment cycle time by 65%.
- Formulated robust authentication mechanisms leveraging OAuth2 and JWT with encrypted token rotation.

EDUCATION & CERTIFICATIONS
University of California, Berkeley - Bachelor of Science in Computer Science (2014 - 2018)
AWS Certified Solutions Architect - Associate (2022)
